

Invisible — Heroes

Canadian food inspectors risk their lives every day to keep safe food on our tables. **They need your help.**

It is easy to lose sight of them. They are on the frontlines of some of the most dangerous places to work during the pandemic. But they are rarely in the headlines in spite of the essential role they play. Many have fallen ill, yet the protective equipment they need is still not adequate.

Scan or take a photo to sign.

Please sign the petition to ensure these Invisible Heroes have the protective gear they need to stay safe.
